INDEX TO THE ADVANCEMENT OF SCIENCE

Volume 22, Nos. 95-106, May 1965-April 1966

Figures in bold type preceding page references indicate issues of *The Advancement of Science*. Entries marked with an asterisk (*) appear only in summary form in the record of the Transactions of the Cambridge Meeting (**103**, 531–567). Titles are frequently abbreviated.

References to the publication of papers (presented at the Cambridge Meeting) in *The Advancement of Science* and elsewhere if known, are included in the record of the Transactions (**103**, 531–567).

ADAM, KENNETH, Education—the responsibility of television, **96**, 77
ADDYMAN, P. V., Rural economy of the Cambridgeshire fenland, **103**, 550*
Air pollution from the internal combustion engine, C. G. Williams, **103**, 549*
Age of Dinosaurs, A. J. Charig, K. A. Kermack, L. S. Russell and W. E. Swinton, **103**, 537*
Alien biology, problems of, W. T. Williams, **98**, 198
intelligent beings, problems of communication with, D. M. A. Mercer, **98**, 200
sociology, A. R. Manser, **98**, 204
Alkylating agents, chemical carcinogens and DNA, P. D. Lawley, **103**, 535*
ALLISON, DR. A. C., Lysosomes and cell membranes, **103**, 540*
ANDERSON, DR. NANCY S., Anything you can do (well almost) a computer can do better, **103**, 554*
ANDRESKI, PROF. S. L., Class structures in tropical Africa, **103**, 563*
ANDREW, SIR HERBERT, Education—responsibility of the state, **96**, 63
Animal behaviour, conceptual advances in study of, Desmond Morris, **103**, 538*
ecology, changing concepts in, G. C. Varley, **103**, 539*
Artificial intelligence and the simulation of behaviour, Nancy S. Anderson, M. B. Clowes and L. Uhr, **103**, 554–555*
Artificial limbs, power sources for, A. B. Kinnier Wilson, **103**, 551*
Automatic control, E. D. Farmer and K. W. James, **103**, 534*

BACON, F. W., Economic and financial impact of state and private pension provision, **96**, 111
BAILEY, PROF. F. G., Caste and politics in India, **103**, 563*
BARROW, J. F., Planning in the New Forest, **97**, 144
BATE-SMITH, DR. E. C., Preservation of fruit and vegetables: work in the Low Temperature Research Station, Cambridge—Introduction, **103**, 558*
BATESON, DR. P. P. G., Characteristics and context of imprinting, **103**, 540*
BEARDMORE, PROF. J. A., Genetic information in populations, **103**, 542*
Behaviour from parent to offspring, transmission of, P. P. G. Bateson, K. Connolly and N. P. Moray, **103**, 540–541*
BELL, DR. G. D. H., Mendel Centenary—Introduction, **103**, 542*
BENDALL, DR. D. S., Studies in biochemistry of tea fermentation, **103**, 557*
BENZIAN, BLANCHE, Nutrition experiments in forest nurseries, **103**, 559*
BERKIN, J. P., Potential contribution of oil, **99**, 299, **103**, 531
BETTS, PROF. A. O., Effect of intensive livestock husbandry on infectious disease, **103**, 541*
BEYNON, PROF. W. J. G., International years of the quiet sun, **97**, 167
Biological retrospect, Sir Peter Medawar, **100**, 357, **103**, 538
Bird navigation, recent studies in, G. V. T. Matthews, **103**, 542*
BLACK, PROF. J. N., Utilisation of solar energy by forests, **103**, 562–563*
BLACK, M., Distribution of coccoliths in Mesozoic rocks of eastern England, **103**, 536*
BLACKBURN, DR. G. M., Photochemistry of nucleic acids, **103**, 535*
BONDI, PROF. HERMANN, Gravitation (York Lecture 1965) **103**, 532*
BOOKS:
for the general reader (National Book League notes), **95**, 42, **97**, 157, **98**, 227, **103**, 567, **105**, 635
reviews, **95**, 45, **97**, 159, **104**, 592, **105**, 637
BOOTE, R. E., Rural planning problems—conservationist's approach **103**, 543*
Boron, variation of, with respect to organic carbon and to palaeosalinity in some carboniferous sediments, R. M. C. Eagar and D. A. Spears, **103**, 538*
BOSTON, D. M., Fishing, **103**, 550*
Botanical studies, recent advances in, D. S. Bendall, D. J. Carr, J. L. Crosby, A. Frey-Wyssling and N. W. Simmonds, **103**, 556–557*
BOXER, LESLIE, Self-knowledge and historical perspective in a science-conscious society, **103**, 535* and see B. A. News **98**, 231
BOYLE, SIR EDWARD, Science pure and applied, **103**, 561*
BRAY, DR. R. S., Malaria, monkeys and man, **95**, 25
BRIGHT, DR. A. W., Some modern applications of electrostatics, **103**, 533*
Bringing archaeology to life, Dr. V. B. Proudfoot, **97**, 125
British Association Annual Report, 1964–65, **98**, 253
BRITISH ASSOCIATION NEWS: **95**, 20, **96**, 109, **98**, 231, **100**, 377, **104**, 590, **106**, 688
BRITTON, D., The hoard from Isleham in Cambridgeshire, **103**, 549*
BROADBENT, DR. D. E., Man-machine systems in extreme conditions, **103**, 553*

BRONGERSMA-SANDERS, DR. M., Fertility of the sea and its bearing on the origin of oil, **103**, 536*
BROWN, DR. D. M., The mutagenic activity of hydroxylamine, **103**, 535*
BULLERWELL, DR. W. and TERRIS, A. R., Investigations into the underground structure of Southern England, **98**, 232

CADMAN, W. A., The New Forest (Ytene), **97**, 134
CAESAR, A. A. L. and KEEBLE, D. E. (eds), Regional planning problems in Great Britain, **97**, 177
CAIN, PROF. A. J. and SHEPPARD, PROF. P. M., Changing concepts in zoological systematics, **103**, 538–539*
Cambridge geographers, facilities and teaching available to, B. H. Farmer, G. de Q. Robin, J. K. S. St. Joseph and J. A. Steers, **103**, 542–543*
economic growth project and the fuel and power industries, K. J. Wigley, **103**, 546*
CAMPBELL, DR. J. A., The ecology of animal disease in hill-farms, **103**, 541*
CARR, PROF. D. J., Some aspects of the physiology of flowering, **103**, 556*
CARTER, CHARLES F., Economics of higher education, **95**, 53
CATT, DR. J. A., Origin of clay with flints in Sussex, **103**, 537*
Cell membranes, aspects of, A. C. Allison, R. R. A. Coombs, H. J. Rogers and M. G. P. Stoker, **103**, 540*
Changing aims of forestry, C. W. Scott, **100**, 388, **103**, 559
CHAPPELL, DR. J. B., Ion transport, **103**, 551*
CHARIG, DR. A. J., Stance and gait in the archosaur reptiles, **103**, 537*
Chemistry of biological mutation, G. M. Blackburn, D. M. Brown, P. D. Lawley and Lord Todd, **103**, 535*
Chemistry of the noble gases, Bruce Thomson, **98**, 208
CHERNS, A. B., Government support for research in the Social Sciences: a discussion on the Report of the Heyworth Committee, **103**, 547*
CHRISTOPHERSON, DR. D. G., A technologist's approach to education, **103**, 561*
City Region, The, Prof. M. J. Wise, **103**, 543, **104**, 571
CLARK, DR. D. H., The therapeutic community: the social sciences contribute to hospital psychiatry, **103**, 554*
CLARK, PROF. J. G. D., The Neolithic in the Cambridge region, **103**, 549*
CLAYTON, PROF. G. and OSBORN, W. T., Economic significance of life assurance, **96**, 117
Cloud physics and meteorology, D. G. James, **103**, 532*, B. J. Mason, **103**, 485, 532
CLOWES, DR. M. B., Computers and picture processing, **103**, 555*
Coal, potential contribution of, Lord Robens, **99**, 291, **103**, 531
Coccoliths, distribution of, in Mesozoic rocks of eastern England, M. Black, **103**, 536*
COLES, V. R., Short-range weather forecasting, **96**, 123
CONNOLLY, K., Genetic basis of behaviour, **103**, 541*
COOMBS, DR. R. R. A., Cell surface as revealed by immunology, **103**, 540*
Cosmology, recent developments in, F. Hoyle, **103**, 531*
recent results in, D. W. Sciama, **103**, 532, **104**, 593
quasi-stellar radio sources, J. R. Shakeshaft, **103**, 532*
COUSENS, J. E., Utilisation of solar energy by forests, **103**, 562–563*
CRAWFORD, DR. G. N. C., Factors affecting the growth of muscle, **103**, 551*
CROSBY, DR. J. L., The computer in evolutionary studies of plant populations, **103**, 556*
Cultured technologist, F. Metcalfe, A. D. C. Peterson, **103**, 556–567*

DALEY, D. J., Probability model for rumour mongering, **103**, 533*
DANCY, J. C., Technology in a liberal education, **100**, 379, **103**, 560
Darwin Lecture 1965, by Dr. G. F. Leedale, on *Euglena: a new look with the electron microscope*, **103**, 557*
DE WIT, DR. IR. C. T., Basic principles of utilisation of radiant energy by crop or plant community surface, **103**, 562*
DIAMOND, D. R., Regional planning: the Scottish approach, **97**, 183
DICKSON, DR. J. H. and MRS CAMILLA, Plant remains from post-glacial deposits in the Fenland, **103**, 557*
DIGBY, ADRIAN, Wind-power and its uses, **103**, 550*
DIMBLEBY, PROF. G. W., Early agriculture in the New Forest, **96**, 88
Man's impact on vegetation, **103**, 550*
Dissemination of science, Valeri I. Popkov and Dael Wolfle, **103**, 565*
DREVER, PROF. JAMES, Universities and the social fabric (ed.), Need, choice and supply in higher education, **95**, 29
DREYFUS, H. B., Transmission of power, **103**, 547–548*
DUFTY, A. R., Cambridge: a talk and perambulation, **103**, 549*

EAGAR, DR. R. M. C., Variation of boron with respect to organic carbon and to palaeosalinity in some carboniferous sediments, **103**, 538*
Early agriculture in the New Forest, C. R. Tubbs and G. W. Dimbleby, **96**, 88
EAVES, P. S. K. and HART, DR. A. B., Energy storage, **103**, 548*
Economics and business life, A. W. Knight, **95**, 11
EDEN, DR. PETER, Historic buildings in West Cambridgeshire—a topographical study, **103**, 549*
Editorial policy, a note, Sir Dudley Stamp, **95**, 1
EDWARDS, PROF. K. C., Regional planning: an assessment for Great Britain, **97**, 184
EDWARDS, PROF. SIR RONALD, Electricity and economic policy, **103**, 546*
Electricity and economic policy, Prof. Sir Ronald Edwards, **103**, 546*
Electrostatics, modern applications of, A. W. Bright, **103**, 533*
recent developments in, N. J. Felici, **103**, 532*
ELLENBY, J., Spatial aspects of electricity consumption in England and Wales, 1955–1964, **103**, 545*
'Endeavour' Essays: 1964, by Bruce Thomson, on *The Chemistry of Noble Gases*, **98**, 208
1965, by Peter Hogarth, on *The Physiological Basis of Memory*, **108**, 696
Energetics of running: an analysis of world records, B. B. Lloyd, **103**, 515, 551
Enzymes, structure of, B. S. Hartley, M. H. Richmond and H. C. Watson, **103**, 552*
Ergonomics and work study, B. Shackel, W. T. Singleton and L. C. Troup, **103**, 555–556*
Euglena: a new look with the electron microscope, G. F. Leedale, **103**, 557*
EVANS, C. R., Perceptual phenomena associated with an image stabilised on the retina, **103**, 554*
EVANS, DR. S., Radio echo sounding of polar ice sheets, **103**, 544*

Evening discourses
Dr E. B. Worthington on *The International Biological Programme*, **103**, 531*
Prof F. Hoyle on *Recent developments in cosmology*, **103**, 531*
Experimental psychology, C. R. Evans, J. C. Marshall and Miss H. Oldfield-Box, **103**, 554*
Exploitation of environment, P. V. Addyman, D. M. Boston, Adrian Digby, G. W. Dimbleby, H. W. M. Hodges, Trefor Owen, V. B. Proudfoot and M. L. Ryder, **103**, 550*
EYSENCK, PROF. H. J., Measurement of intelligence, **103**, 532*

FARMER, B. H., Work in Department of Geography and its Sub-departments and role of Geography in the centre of South Asian Studies, **103**, 543*
FARMER, E. D., Mathematical aspects of prediction, **103**, 534*
FAUX, F., Amenity and power production, **103**, 566*
FELICI, PROF. N. J., Recent developments in electrostatics, **103**, 532*
FELL, DAME HONOR B., Role of lysosomes in skeletal physiology, **103**, 539*
Field geologist, role of the, J. V. Harrison, **102**, 439, **103**, 536
FINCHAM, DR. J. R. S., From Mendel to genes as functional units, **103**, 542*
Forecasting and business policy, Elwyn O. Jones and J. Morrell, **103**, 546, **105**, 639
Forestry, changing aims of, C. W. Scott, **100**, 388, **103**, 559
FORTES, PROF. MEYER, Use of fuel among the Tallensi of northern Ghana, **103**, 549*
'Fossil' lightning strikes 250 million years ago, W. B. Harland and J. L. F. Hacker, **103**, 538, **106**, 663
FREY-WYSSLING, PROF. A., Method of freeze-etching in electron microscopy, **103**, 557*
Fuel and power, future prospects at home and abroad, A. R. J. P. Ubbelohde, **99**, 334, **103**, 531
and power resources in Britain, development of, J. Ellenby, E. M. Rawstron and H. B. Rodgers, **103**, 545*
and power resources, current developments in the use of, P. R. Odell, T. M. Thomas and A. D. Walton, **103**, 544*
and power resources in the ancient Near East, F. R. Matson, **103**, 549*
collection and the seasonal calendar of work in central Africa, Audrey Richards, **103**, 549*
in the world, J. Gillespie, F. F. Ross and G. F. Skelton, **103**, 547*
use of, among the Tallensi of northern Ghana, Meyer Fortes, **103**, 549*

GABB, DR. J. E., Medical aspects of space flight, **103**, 531*
Gas, potential contribution of, with special reference to natural gas, H. J. Kruisinga, **99**, 312, **103**, 531
Genealogy of man, D. A. Pilbeam, **103**, 550*
GIBBS, J. N., Root infection by Fomes annosus, **103**, 559*
GILL, PROF. S., Machining of formulae, **103**, 534*
GILLESPIE, J., Methods of estimation of oil and gas reserves, **103**, 547*
GILLION, C., Short-term economic forecasting, **103**, 545*
GOKSØYR, DR. JOSTEIN, Wood-decomposing fungi and their adaptation to life in wood, **97**, 147
GOLDTHORPE, J. H., The affluent worker, **103**, 563*
GOODDY, DR. WILLIAM, Inside time and outside time, **103**, 566, **106**, 678
GRACEY, G. C., Amenity and the transmission of power, **103**, 566*
Great Britain, regional planning problems in, A. A. L. Caesar and D. E. Keeble (eds.) M. J. Wise, R. T. White, G. Humphrys, D. R. Diamond and K. C. Edwards, **97**, 177
GREGORY, R. L., Perceptual problems of space travel, **103**, 552*
GREVILLE, DR. G. D., Generation of energy, **103**, 551*

HALSEY, DR. A. H., Government support for research in the Social Sciences: a discussion on the Report of the Heyworth Committee, **103**, 547*
HARDY, R. N., Viability of the newborn animal, **103**, 541, **106**, 689
HARLAND, W. B., and HACKER, MRS. J. Palaeo-fulgurites in the new red sandstone of Arran, Scotland, **103**, 538 (new title) **106**, 663
HARLEY, MISS S. E., Orchid mycorrhiza, **103**, 559*
HARRISON, DR. J. V., The role of the field geologist, **102**, 439, **103**, 536
HART, DR. A. B. and EAVES, P. S. K., Energy storage, **103**, 548*
HART, S. G. P., Private forestry in New Zealand, **103**, 560*
HARTLEY, DR. B. S., Enzymes are proteins, **103**, 552*
HARTLEY, SIR HAROLD, The world's needs for fuel and power—past, present and future, **99**, 283, **103**, 531
Health hazards in relation to fuel and power resources, J. H. Fremlin, D. D. Reid, J. Rogan and Sir Brian Windeyer, **103**, 552*
HEARLE, J. W. S., Materials science and technology, **103**, 535* and see B.A. News, **98**, 231
HEMSLEY, J. H., Nature conservancy and the New Forest, **97**, 142
HEY, PROF, D. H., Changing face of organic chemistry, **101**, 409, **103**, 534
Heyworth Committee Report, Government support for research in the Social Sciences: a discussion, A. B. Cherns, A. H. Halsey, T. H. Marshall and B. R. Williams, **103**, 546–547*
Higher education, economics of, Charles F. Carter, **95**, 53
need, choice, and supply in, James Drever, **95**, 29
High-pressure oxygen in medicine, K. G. Williams, **95**, 47
HILTON, N., Approach to agricultural land classification, **103**, 543*
HIMMELWEIT, PROF. H., Implications of our present student selection policy, **103**, 553*
HINSHELWOOD, SIR CYRIL, Introduction to Symposium on World Fuel and Power Resources and Needs, **99**, 281
Science and scientists, **100**, 347, **103**, 531
HINTON, LORD, Potential contribution to electricity generation of hydro-electric power and nuclear energy, **99**, 326, **103**, 531
HODGES, H. W. M., Man's occupance of the soil, **103**, 550*
HODSON, DR. F. R., Iron Age burials in the Cambridge area, **103**, 549*
HOGARTH, P. Physiological basis of memory ('Endeavour' Essay, 1965) **106**, 696
HOLLIDAY, R., Solar energy consumption in relation to crop yield, **103**, 562*
HOYLE, PROF. F., Recent developments in cosmology, **103**, 531*
HUDSON, PROF. J. P., Irrigation problems under hot arid conditions, **98**, 218
HUDSON, DR. LIAM, Research on intellectual types: scientists, technologists and artists, **103**, 561, **104**, 612
Selection and the dangers of conformity, **103**, 553*

HUGHES, ALEC M., Looking at science, **99**, 342, **102**, 465, **104**, 589
HUMPHRYS, G., Services in growth centres and their implications for regional planning, with special reference to South Wales, **97**, 181
HUTCHINGS, D. W., Is University research in this country worthwhile? **103**, 548*
HUTCHINSON, SIR JOSEPH, elected President of the British Association, 1965–66, **100**, 376
Hydro-electricity in Austria, development of, L. G. Scheidl, **103**, 543*
Hydro-electric power and nuclear energy, potential contribution to electricity generation, Lord Hinton, **99**, 326, **103**, 531

ILERSIC, A. R., Taxation and business decisions, **103**, 546*
Inflation, is it inevitable? E. Victor Morgan, **101**, 419, **103**, 546
INGRAM, PROF. D. J. E., Magnetic resonance, **103**, 533*
Interaction of technologies, 1965, Shell Chemical Co. B.A. Award, B.A. News **98**, 231 (terms of reference and results), Leslie Boxer and J. W. S. Hearle, **103**, 535*
International years of the quiet sun, W. J. G. Beynon, **97**, 167
Irrigation problems under hot arid conditions, J. P. Hudson, **98**, 218
ISHERWOOD, DR. F. A., Lignification of cell walls, **103**, 558*

JACKSON, J. A., Two contemporary cults, **103**, 564*
JAHODA, PROF. G., Emergence of national concepts and attitudes, **103**, 553*
JAMES, DR. D. G., Satellite meteorology, **103**, 532*
JAMES, DR. K. W., Mathematical aspects of automatic control, **103**, 534*
JONES, ELWYN O. and MORRELL, J., Forecasting and business policy, **103**, 546, **105**, 639
JONES, PROF. W. T., Model for the analysis of belief systems, **103**, 564*
JOPE, PROF. E. M., Man's use of natural resources, **102**, 455, **103**, 549
JOYCE, DR. C. R. B., An ounce of civet, **103**, 565, **106**, 672

KEEBLE, D. E., Why leave London? **97**, 177
and CAESAR, A. A. L. (eds) Regional planning problems in Great Britain, **97**, 177
Kelvin Lectures: 1964, by Dr. W. Marshall, on *The study of solids and liquids using thermal neutrons*, **97**, 186
1965, by Dr. M. Prutton, on *Thin films and their role in computers*, **103**, 532, **105**, 623
KERMACK, DR. K. A., Small terrestrial vertebrates in the age of Dinosaurs, **103**, 537*
KNIGHT, A. W., Economics and business life, **95**, 11
KOESTLER, ARTHUR, Evolution and revolution in the history of science, **103**, 564, **105**, 654
KRUISINGA, PROF. DR. H. J., Potential contribution of gas, with special reference to natural gas, **99**, 312, **103**, 531

Landing aircraft safely in all weathers, G. W. Webber, **103**, 547*
LAWLEY, DR. P. D., Alkylating agents, chemical carcinogens and DNA, **103**, 535*
LEEDALE, DR. G. F., Euglena: a new look with the electron microscope (Darwin Lecture 1965), **103**, 557*
Life assurance, the economic significance of, G. Clayton and W. T. Osborn, **98**, 117
Lister Lectures: 1964, by Dr. V. B. Proudfoot, on *Bringing Archaeology to Life*, **97**, 125
1965, by Dr. A. Triesman, on *Our limited attention*, **103**, 553, **104**, 600
LLOYD, B. B., Energetics of running: an analysis of world records, **103**, 515, 551
Local archaeology, D. Britton, J. G. D. Clark, A. R. Dufty, Peter Eden and F. R. Hodson, **103**, 549*
Looking at science, Alec M. Hughes,
comments on B.A. receptions for teachers, **95**, 22
notes on 30 films concerned with fuel and power, **99**, 342
films on theme of urban development, **102**, 465
catalogues received, **104**, 589

MCCLELLAND, W. G., Can top management be trained? **103**, 556*
MACFARQUHAR, A. M. M., Introduction of machine power into primitive agriculture, **103**, 562*
Machining of formulae, S. Gill, **103**, 534*
MACRAE, PROF. D. G., Sociology of secular religions, **103**, 563*
MADDOX, JOHN, Teaching science in an age of technology, **103**, 561*
Malaria, monkeys and man, R. S. Bray, **95**, 25
Management training, J. Marsh, W. G. McClelland and D. Pym, **103**, 556*
Man-machine systems in extreme conditions, D. E. Broadbent, **103**, 553*
Man-powered aircraft, D. J. M. Williams, **103**, 548*
MANSER, A. R., Alien sociology, **98**, 204
MAPSON, DR. L. W., Genesis and biogenesis of ethylene, **103**, 558*
MARSH, J., A philosophy of management development, **103**, 556*
MARSHALL, J. C., Psycholinguistics, **103**, 554*
MARSHALL, DR. W., Study of solids and liquids using thermal neutrons (Kelvin Lecture 1964), **97**, 186
MARTIN, DR. D. A., Research probes in the sociology of religion, **103**, 564*
MASON, PROF. B. J., On the formation of raindrops and hailstones, **103**, 485, 532
Mathematical reasoning, fallacies in, E. A. Maxwell, **103**, 533*
MATSON, PROF. F. R., Fuel and power resources in the ancient Near East, **103**, 549*
MATTHEWS, DR. G. V. T., Recent studies in bird navigation, **103**, 542*
MAXWELL, DR. E. A., Fallacies in mathematical reasoning, **103**, 533*
MEDAWAR, SIR PETER, A biological retrospect, **100**, 357, **103**, 538
Medicine, high-pressure oxygen in, K. G. Williams, **95**, 47
MEIGH, DR. D. F., Ethylene and the ripening of fruit, **103**, 558*
Memory, physiological basis of, P. Hogarth, **106**, 696
Mendel Centenary, J. A. Beardmore, G. D. H. Bell, J. R. S. Fincham, G. V. T. Matthews, A. O. W. Stretton and J. M. Thoday, **103**, 542*
MERCER, DR. D. M. A., Problems of communication with alien intelligent beings, **98**, 200
METCALFE, F., Idea of a technical college, **103**, 567*
